|--|--|------------------------|---------------------|---------------------|---------------------|---------------------|---------------------|
| My List Indicator | The product now provides indicators informing user that various list in the program could be affected by the My List feature. This enhancement eliminates confusion and frustration when clients, task and/or expenses are believed missing or delete when they are actually hidden due to the My List feature being used. | ● | ● | ● | | | |
| Report list: All reports tab | A new tab lists all available reports in Sage Timeslips. From this tab, users can text search for desired reports and report types. | ● | ● | ● | | | |
| Option to page break before consolidated summary | You can further customize consolidated bills by electing to page break when including the timekeeper summary. | ● | ● | ● | | | |
| Show consolidated bills separately when reprinting bills | You can now separate consolidated bills into individual invoices when displaying the reprint bills list. | ● | ● | ● | | | |
| Set First Day of the Work Week | Users now have the ability to set their business' first day of the work week. Historically, Timeslips defaulted to Sunday | ● | ● | ● | | | |
| Redesigned accounts receivable entry/list | Accounts receivable entry/list now displays more vital data eliminating the need to search and run reports to obtain. The new entry window has been reconfigured to provide easy to read and research billing processes. | ● | ● | ● | ● | | |
| Redesigned budgets | Sage Timeslips budgets have taken on a new look and feel. Establishing client specific budgets can be done quickly and easily. This redesign provides simplified setup and management. Calculating budgets is now several times faster and can be quickly duplicated for multiple client use. | ● | ● | ● | ● | | |

sage Timeslips

| Feature and enhancement | Description | Sage Timeslips Premium | Sage Timeslips 2019 | Sage Timeslips 2018 | Sage Timeslips 2017 | Sage Timeslips 2016 | Sage Timeslips 2015 |
|------------------------------------|--|------------------------|---------------------|---------------------|---------------------|---------------------|---------------------|
| Redesigned billing assistant | The redesigned billing assistant provides an updated list view of all or select clients for fast and accurate verification of data for quick invoicing. The improved layout of the billing assistant gives a true “at a glance” view of all billing details. Speed and performance of the billing assistant and functionality is improved also. | ● | ● | ● | ● | | |
| Firebird database (SQL) | New SQL like database platform that will improve overall performance and speed (in some cases 5X faster than prior Sage Timeslips applications), especially in networked environments with a large number of users. Database will also be more resilient to corruption due to network transmission outages or latency. | ● | ● | ● | ● | | |
| Redesigned client information | The client information dialog box has been redesigned so that related fields and options are grouped better, navigation controls are more consistent throughout Sage Timeslips, and saving and retrieving of some information is faster. | ● | ● | ● | ● | ● | ● |
| Client secondary address field | On the client information dialog box, the contact info page now contains additional fields for a second address. | ● | ● | ● | ● | ● | ● |
| Generating receipts for payments | You can now confirm that you received a payment from a customer by generating a payment receipt. Receipts are available for payments, reverse payments, payments to account, and payments from account. | ● | ● | ● | ● | ● | ● |
| Printing watermarks on draft bills | During your typical bill cycle, you may print preview drafts of your bills, before all charges are ready to send to your clients. When printing a draft bill run, you can include watermarks on the bills to indicate they are draft bills. Draft bills cannot be approved. When you print draft bills, you will not be able to put them in proof stage, approve them, or email them. To approve the bills, you will need to show full descriptions and exclude watermarks for the bill run. | ● | ● | ● | ● | ● | ● |
